Objet : RE: 454 sequencing results

Aurélie,

Sorry about that! For some reason, the software doesn't assign the region names to the files. Anyway, regions 1 & 2 are Pool 1; Regions 3, 4, & 5 are Pool 2, and Regions 6, 7, & 8 are Pool 3. Please let me know if you have any questions!

Anthony

Subject: 454 sequencing results

Hi Anthony,

I downloaded the results concerning my last 454 sequencing. I can not understand which pool correspond to which region ? I sent you 3 pools and you gave me the results for 8 regions.

Best regards,

Aurélie Johanet, University of Lyon, France
