

To Whom It May Concern,

It's my great pleasure to recommend Tobie Getti for a position in your organization.

Tobie worked with remarkable professional demeanor as a research assistant under my supervision for the Alpine marmot's project at La Grande Sassièrre (France) from May to July 2017.

During this period, Tobie demonstrated an exemplary work, organized and diligent, fully dedicated to his tasks. His interest and availability allowed him to quickly learn the needed knowledge to provide high quality results.

With physical strength and accuracy, he realized adult and juvenile captures following strict scientific protocols and shown ability to participate efficiently to this capture-mark-recapture study, with a demonstrated rigor in biometrics measurements. Not only has he to stay well concentrated and patient during long hours of behavior observations, but also was he totally reliable and efficient with multitasks activities like database entry or lab work for samples previously collected.

In addition to his professional qualifications, Tobie has personal qualities that make him easily well integrated into any team, with high motivation for community chores, always open-mind and careful with other team members. Along with a natural upbeat, he became a real driving force, appreciated by all thanks to his dynamism and ability to adapt to any situation.

Without a doubt, I reiterate my highest support for Tobie Getti to any endeavor he chooses to pursue as I know that he will definitely be a beneficial addition to your organization.

Please feel free to contact me for any further information about his specific skills and experience.

Thank you for your consideration.

Sincerely,

Sylvia Pardonnet
